

Composition:

Mineral fibre braided sheath with silicone coating, waterproof and flame-retardant

Application:

Protection and insulation of bundles of water, gas, compressed air or hydraulic fluid hoses against environmental aggressions (presence of flames, splashes of molten metal or glass, episodic very high temperatures, vapour sprays, etc.) Packaging: On request: contact us

Technical data

KEY BENEFITS

- Point flame resistance and tightnes
- Excellent flexibility at low temperatures: SILITUBE[®] X does not harden, does not flake or soften
- Self-extinguishing-meets with test VW-1 requirements, according to standard UL 144'
- Swells slightly in the presence of hydrocarbons
- Very flexible
